Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. **Claims 1-16, 19 and 20** are rejected under 35 U.S.C. 102(e) as being anticipated by Milewski et al. (United States Patent 6,519,326), hereinafter referenced as Milewski.

Regarding **claim 1**, Milewski discloses telephone voice-ringing using a transmitted voice announcement. In addition, Milewski discloses a method for alerting a user at a terminal location of an incoming phone call, the method comprising steps of: receiving a criterion manually entered by the user before the incoming phone call is placed; receiving notification of the incoming phone call with an identifier associated with the incoming phone call; detecting the identifier associated with the incoming phone call; correlating the identifier with the pre-recorded voice announcement using the criterion; and playing the pre-recorded voice announcement at the terminal location, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 2**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses a step of receiving the pre-recorded voice announcement for the incoming phone call, wherein the pre-recorded voice announcement is received from a point geographically separate from the terminal location, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 3**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses wherein the step of correlating the identifier comprises the following step correlating a phone number with a pre-recorded voice announcement, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 4**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses recording the pre-recorded voice announcement, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 5**, Milewski discloses everything claimed as applied above (see claim 4), in addition, Milewski discloses a step of storing the pre-recorded voice announcement with consumer phone equipment, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 6**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses a step of interrupting a phone call to play the

pre-recorded voice announcement, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 7**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses a step of playing the pre-recorded voice announcement with an earpiece, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 8**, Milewski discloses everything claimed as applied above (see claim 1), in addition, Milewski discloses a computer-readable medium having computer-executable instructions for alerting the user of the incoming phone call, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 9**, Milewski discloses a method for alerting a user of an incoming phone call, the method comprising the steps of: recording a voice announcement to create a pre-recorded voice announcement; receiving a selection that helps correlate the pre-recorded voice announcement to an identifier, wherein the selection is manually entered by the user prior to the incoming phone call; receiving notification of the incoming phone call that indicates the identifier associated with the incoming phone call; detecting the identifier associated with the incoming phone call; correlating the identifier with the pre-recorded voice announcement using the selection; and playing the pre-recorded voice announcement, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claim 10**, Milewski discloses everything claimed as applied above (see claim 9), in addition, Milewski discloses a step of receiving the pre-recorded voice

announcement for the incoming phone call from a first location across a wide area network from a second location of the user, as disclosed at column 3, line 6 through column 7, line 21 and exhibited in figures 3 and 4.

Regarding **claims 11-16, 19 and 20**, they are interpreted and thus rejected for the reasons set forth above in the rejection of claims 1-10.

Response to Arguments

2. Applicant's arguments with respect to claims 1-16, 19 and 20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
